**A Note To Parents...**

*Abraham Joshua Heschel Day School offers a rich dual-curricular education which focuses on individual learners achieving their highest potential in both general and Judaic Studies, thereby enabling them to attain a quality education, a love of learning, and sound self esteem. We provide an individualized, experiential program where the student becomes an active participant in the education process. As they move into high school, our alumni are prepared to respond to the call to leadership and to apply the values that they were imbued with here at Heschel.*
