A Note To Parents...

In keeping with its founding mission - to provide creative and intellectual challenge in a positive, joyful, humane atmosphere - Oakwood takes the growth and development of children seriously. Elementary students study arts, sciences, and humanities as coordinated disciplines. Secondary students enjoy a challenging college preparatory program balanced with extensive opportunities in fine and performing arts, athletics and other co- and extra-curricular activities. Through close relationships between teachers and students, Oakwood fosters personal integrity, independence of thought, a passion for knowledge, and the desire to make a difference.
